Experience

CiberBit S.A.

Porto, Portugal

FULL-STACK DEVELOPER

Mar. 2022 – Present

- Working on CiberBit's healthcare management software, I'M THOM, used by major healthcare companies in Portugal (CUF, Trofa Saúde, Joaquim Chaves) and internationally (Oman International Hospital).
- Key contributor to one of the application's most used modules, the appointment scheduling module.
- Implemented a wide variety of features on I'M THOM's other most used modules, such as billing or ticketing systems, improving user experience and performance.
- Worked in a scrum agile methodology, collaborating with developers, testers, and product owners.
- Technologies: C#, .NET, JavaScript, SQL Server, CSS, JQuery.

GECAD — Grupo de Investigação em Engenharia e Computação Inteligente para a Inovação e o Desenvolvimento

Porto, Portugal
